TO OUR ESTEEMED CUSTOMERS AND ALL OTHER LOVERS OF FLOWERS!

The Barometer has risen a little, and although it is not yet pointing to fine weather, the black clouds are beginning to yield more and more to the light and warmth of the sun.

The natural love of people for gardens and flowers is coming back again and there is no better barometer than that imaginable to show us that we have already passed the climacteric in these years of depression.

The prospects having become so much better, we are now beginning to realize how many things we have had to do without for the sake of economy. and how much we are now in need of something to freshen us up. .

Little has been done to the garden during the last few years, only in fact what could not very well be left undone, and the purchasing of new varieties of flowers has been either partly or even entirely neglected.

And now — while the barometer is rising — our new catalogue is lying before you, full of offers of the most beautiful varieties of flowers. It will indeed be difficult for you to make your choice, as you would undoubtedly like to have all of them.

For indoors, for balcony and windowboxes, for the garden, for early Spring. late Spring, Summer and Autumn, here are the loveliest of flowers from which you can make your choice for all purposes whatsoever.

The barometer is rising — but it is not yet pointing to fine weater — and we have fixed our prices accordingly. A lovely garden and a house full of flowers need not cost you much; just look through our catalogue and see for how little you can get the most beautiful varieties of flowers.

We guarantee everything we supply to be of prime quality, and a most careful execution and delivery of your orders can be relied on, in spite of the low prices, since only then can OUR barometer keep on rising.

Looking forward to your much esteemed orders which we hope to receive as soon as possible, we remain,

Yours very respectfully,

*Brun Duijs.*

# STASSEN'S EARLY-FLOWERING BULBS FOR ROCK-GARDENS

"My home is my castle" is as true to-day as ever it was. Every house with its garden is an island amidst its surroundings, so complete and isolated a unit in itself, that there is not an occupant but can make his own "castle" of it. There is no better line of partition than that afforded by a rockery with its slope of rocks and stones. We thoroughly recommend the planting in your rockery in large numbers of the subjoined varieties of bulbs, where most of them will display the beauty of their brightly-colored flowers as early as the beginning of Spring.

### Bargain priced rainbow-mixture of Darwin-tulips

**Innumerable varieties, colors and shades. Perfect cut flowers.** The great number of varieties, colors and shades in this mixture makes it a veritable orgy of color, which must be seen to be believed. There are 70 varieties in Darwins, only in shades of red; then there are blue, violet, pink, brown, black and many other colors in every imaginable shade. You might have a bed of some ten different colors; but that is nothing remarkable; that is not enough color to make it in any way unique. A bed of our DARWIN-MIXTURE, on the contrary, is a dazzling blaze of color of indescribable splendor, that must attract the eye even, of those who are indifferent to the daily marvels of Nature. After having looked upon a bed of our Darwin-Mixture for some time, you seem to see only ONE grand color in which every conceivable color is conjoined. In spite of the exceedingly low price we guarantee bulbs of the finest quality.

## Stassen's new Triumph Tulips

A new species obtained from a cross between the long-stalked robust Darwin-Tulips and the extra early-flowering Duc van Tholl Tulips. They have the long stalks and large flowers of the Darwins but flower a fortnight earlier, and they can easily be forced. We offer you five uncommonly beautiful varieties in this new species, and we have kept the price low on purpose to enable you to try them.

# Stassen's magnificent, robust Single Early Tulips in choice varieties

The following varieties are a choice-collection, pre-eminently suitable for early-flowering beds, edgings and groups; also ideal for rockeries

These early Tulips have been endowed by Nature with a strong and robust build, which renders them proof against the fierce winds that often blow in the beginning of April when their large and magnificent flowers are glorying in their incomparable beauty in the gardens in the new-born Spring. It is also their sturdy build that proclaims them the ideal plant for the rockery. We offer below a veritable choice-collection, containing the most beautiful novelties, in prime quality and at very low prices.

### Bargain priced rainbow-mixture of single early Tulips

Our mixtures have attained a certain reputation, since we do not consider "mixture" to be synonymous with "mishmash". Our mixtures can lay claim to a certain artistry in their composition. We have put very many varieties, colors and remnants into this mixture, but we have taken infinite care not to mix together varieties and colors that clash: the result is a perfect symphony of colours. A mixture like this looks lovely in any garden, and enhances the natural beauty of its color effects. 25 for \$ 1.— 100 for \$ 3.50 500 for \$ 17.—

## Stassen's large-flowered Breeder-Tulips

### THE ARISTOCRATS OF THE TULIP-WORLD

These Breeders are distinguished from the Darwins by the exceptionally fine shades of color to be had in them; and the flowers are also larger and robusiter. They carry their large and noble flowers on their tall and stately stalks so proudly that they may rightly be called "the Aristocrats of the Tulip-World".

# STASSEN'S GIGANTIC, MASSIVE DOUBLE EARLY TULIPS IN CHOICE VARIETIES

TULIPS THAT RESEMBLE ROSES. A SPLENDID FLOWER FOR BEDS, EDGINGS AND GROUPS, UNSURPASSED FOR ROCKERIES, WINDOW-AND BALCONY-BOXES

These magnificent flowers, resembling roses, bloom as early as April. Although the large, robust flowers are heavy with innumerable petals, they stand up, firm and straight, in spite of wind and rain, by reason of their exceptionally strong and massive build. That is why they are such perfect flowers for rock-gardens and for window-and balcony-boxes. We offer you below the very finest choice-varieties; each separate flower is a veritable marvel in itself. Prime quality at extra low prices.

# STASSEN'S OLD ENGLISH GARDEN-TULIPS IN NEW IMPROVED CHOICE-VARIETIES

Popular May-Flowering Cottage-Tulips.

The nurseryman in his untiring study of nature's flowers and their manifold potentialities has enriched this old species with the most beautiful novelties.

The improvements which of late years have given to this old species so many new acquisitions border on the incredible. They flower later than the Darwins, and are in fact the last Tulips seen in the garden. Their flowers are exceedingly graceful, slender and attractive, often Lily-shaped, and of the loveliest colors. Although the choice-varieties below are the finest to be found we have kept the price exceedingly low for flowers of such superb quality.

## Stassen's magnificent novelty "Fantasy"

A FANTASTIC PARROT-TULIP ON A TALL, STRONG STALK

"FANTASY", the name of this rare novelty, has been well chosen. Until now, a Tulip like this was but a fantastic dream. It belongs to the family of the Parrot-Tulips, but has much longer and stronger stalks, and the flower itself is larger and more robust. It is most fantastically shaped: the petals on all sides are serrated, crenated, horned, fringed, scalloped, in one word, "FANTASTIC". The color is an uncommonly beautiful, warm pink, the backs of the petals being apple-green. A superb flower both for beds and edgings, and invaluable as a cut-flower. To enable every flower-lover to possess this magnificent novelty, we have put the price unusually low, even though the quality is the finest procurable, per 3 .50, per 12 1.75, per 25 3.10, per 100 \$ 11.50

## Stassen's wonderful Fimbriata-Tulip, "Sundew"

A wonderful novelty, which is considered the most wonderful novelty the last 25 years. It belongs to the Darwin family, and derives its long, straight stalks from its ancestors together with its extremely large flowers. The wonderful thing about this "Sundew" is, that the edges of the petals are covered with innumerable little feathers. The color is a lovely pinkish red, the back of the petals is of a somewhat darker shade, and it has a big, blue heart. A perfect flower both for beds and edgings, and a splendid cut-flower. As we are cultivating a large number we are able to quote an exceedingly low price, and the quality is the finest imaginable, per 12 \$ .70, per 25 \$ 1.25, per 100 \$ 4.50

Free: 5 beautiful Narcissi with every order amounting to \$ 5.— and mailed within two weeks. (See page 17)

## Stassen's picturesque Rembrandt-Tulips

Gems without a peer

These Tulips which have been rightly named after the celebrated painter, are absolutely unique in color. Only Nature can produce such a marvel of beauty. Every flower is marked with pretty, fantastic stripes. The flowers are also beautiful in themselves, large and superbly shaped, in short these qualities, together with their gorgeous colors and shades, make them well worthy of a place in your garden. p. 12 p. 25 p. 100

## STASSEN'S FANTASTIC PARROT-TULIPS

This Parrot-Tulip is not only a veritable curiosity among the Tulips, but among flowers in general. The flowers of this plant are exceptionally beautiful, and fantastically shaped, with fringelike, scalloped edges. The whole flower is so uncommonly beautiful and so curiously shaped, that you will be filled with astonishment when contemplating this marvel of Nature's handiwork. They flower in about the middle of May, and we can thoroughly recommend them for beds, edgings and rockeries.

## BARGAIN PRICED. DAFFODILS AND NARCISSI FOR NATURALIZATION

Your garden can be made attractive even in early spring by planting plenty of these light-colored Narcissi. They will give you an abundance of cut flowers. They will make your house bright and cheery, and upon the graves of your friends and relations they will be a sweet token of remembrance

Right in the beginning of Spring, when there is not a leaf to be seen on bush or tree, and everything dark and chill, then come these Narcissi with their bright white and yellow tints as the bringers of new life. There is not a place where they will not readily flower, in every nook and everywhere you will see them luxuriantly growing and flowering, giving new and scintillating life to spots that but a short time before were dead and cold. They can be planted in rockeries and grass, too, and you need not be particular to a couple of hundred, since they are extraordinarily cheap; the quality will speak for itself, being the finest procurable.

# LARGE- FLOWERED DOUBLE RANUNCULI

These large double, sumptuous flowers, resembling Roses, grow from spider-shaped bulbs

Some time after these typical spider-shaped bulbs have been planted (remember, legs downwards) the finely-chiselled green foliage makes its appearance above the ground, and somewhat later the numerous stems with their enormous quantity of buds follow, and one large double flower after another opens out until they form a veritable sea of flowers. They are ideal flowers for rockeries, beds, edgings and groups, and they are of uncommon beauty and elegance as cutflowers. For Northern States we advocate early spring planting, for the Southern section of the country fall planting is best. Large-flowers double Ranunculi, genuine French-Hybrids, in a wealth of colors, which surpasses all description, very best quality

per 12	per 25	per 100
\$ —.60	\$ 1.—	\$ 3.50

Single Anemones are excellent cutflowers

# STASSEN'S SINGLE- FLOWERED ANEMONES

For Northern States we advocate early spring planting, for the Southern section of the country fall planting is best. They grow in any soil, and produce heaps and heaps of flowers in all sorts of shapes and colors.

# Grand mixture of dutch Irises of many varieties and colors

We can especially recommend this mixture for groups, beds and edgings in the garden, and they also look very nice along wood and shrubs. They grow and flower anywhere and everywhere and are so cheap that you can decorate the whole garden with them for very little money. This mixture flowers for a month, so you will have plenty of cutflowers for that one month, at least.

## Exceptionally delicate Ixias

Bouquets of several cups in the loveliest colors. There are very few flowers which display such delicate beauty as these Ixias. They are exceedingly sweet, fine and delicate, and that is what makes them so charming. They have bouquets of many little cups in the most beautiful colors and shades on very thin strong stems. They grow anywhere and everywhere and are very cheap, which makes them ideal flowers for thousands of flower-lovers. Beautiful as they are for groups, beds and edgings, they are not less beautiful as cutflowers.

## STRIKING CHIONODOXA (Glory of the Snow)

Flowers in the middle of winter indoors, and very early in spring in the garden.

They grow to a height of about 6 inches and produce small blue flowers with small white hearts. The combination of these two beautiful fresh colors has an extraordinarily bright effect. They make these bulbs extremely suitable for the planting in border and rockeries. They also look remarkably well under shrubs. And also for indoor cultivation they cannot be sufficiently recommended.

**Chionodoxa Lucillae**, star-shaped flowers of sky blue with bright white heart, selected quality, per 25 \$ —.60, per 100 \$ 1.90, per 500 \$ 9.—

**Chionodoxa Sardensis**, pure gentian blue with small white heart, somewhat darker than the above, per 25 \$ —.65, p. 100 \$ 2.10, p. 500 \$ 10.—

## Scilla Campanulata

They produce very elegant flowers in pyramid form. This flower is an improvement on the well-known blue Wild or Wond Hyacinth. A tremendous number of very elegant loose flowers, resembling Hyacinths, in pyramid form on strong stems. Exceptionally beautiful for groups, edgings and borders, and most satisfactory between and under shrubs, trees and bushes: a fine flower, too, for indoors.

All we will tell you now is, that they are beautiful, very beautiful. 5 bulbs of these Narcissi we include with every order amounting to \$ 5.— and over and mailed within 2 weeks.

**AMOUNTING \$ 5.—**

We grow a stock of Narciss, which some time ago, in the good old days, sold at \$ 50.— each bulb. This price was not paid only on account of it being a novelty, but more as being a rarely beautiful variety. What this Narciss looks like we will not reveal now, next spring when they bloom in your garden you will be most happily surprised with them. All we will tell you now is, that they are beautiful, very beautiful. 5 bulbs of these Narcissi we include with every order amounting to \$ 5.— and over and mailed within 2 weeks.

# POPULAR MUSCARI

(GRAPE-HYACINTHS)

Pearls among flowers

Who does not know these **Muscari**? And who does not love these delicate flowers? The numerous, small, coral-shaped pearls, which grow close to one another at the top of the stem, occupy a place of their own in the world of flowers. You can make the most beautiful edgings and groups with them, and they look charming in the rockgarden.

## Rare fritillaria meleagris (Snake's head)

These Fritillaria were before the war one of the most popular lines in our branches. After 1914 they have nearly no more been cultivated. The younger generation is not likely to know these remarkable flowers. They attain a height of about 40 cm. and bear at the upper end of the stem a bunch of pending calices, strongly resembling a snake's head. To be recommended for beds, groups and borders. They grow anywhere and everywhere, and as cutflowers they are really wonderful. Per 12 \$ —.45, per 25 \$ —.80, per 100 \$ 2.70

## Exceptionally popular Snowdrops

Too well known to say much about them. They are the flowers that awaken memories of childhood and youth, the first flowers to comfort and cheer the sick, and the earliest signs of new life upon the graves of our beloved ones. Indispensable for indoor-cultivation and the garden.

<b>Single Snowdrops</b> , selected quality . . . . .	\$ —.70	2.30	11.—
<b>Double Snowdrops</b> , selected quality . . . . .	\$ —.90	3.10	15.—
<b>Galanthus Elwesii</b> , extra large-flowered Snowdrops, imported from Smyrna, a town in Asia . . . . .	\$ —.85	2.90	14.—

# WINTER ACONITES

(*Eranthis Hiemalis*)  
Indispensable for the rock-garden; flower as early as February.

These Winter Aconites flower exceptionally early, and although they only grow very low, they look very charming indeed. The green, wreath-shaped leaves, above which rises the stem with its buttercup-yellow flowers, make a carpet of greenish yellow when the bulbs are planted about 4 inches apart. Lovely flowers for beds, groups, edgings and rockeries. **Heavy selected quality Winter Aconites** per 25 \$ —.65, per 500 \$ 10.—

**100 for  
\$ 2.10**

## Charming Scilla Siberica

These Scilla Siberica look very sweet and charming in the room in Winter. The little bunches of bright blue flowers give so much variety to the surroundings and help to create a summer atmosphere in the home in the middle of Winter. They also look attractive in the garden in groups, beds and edgings and especially in rockeries. These Scillas belong as a rule to the more expensive bulbous plants; but we have cultivated so many this year and the results have so far exceeded our expectations that we are able and glad to supply you with the finest quality at a price which has never before been so low. Always remember when looking through our catalogue that the price is no index to the quality, that means to say, we supply the very best at the lowest prices. **Heavy selected quality Scilla Siberica**, per 25 \$ —.65, per 500 \$ 10.—

**100 for \$ 2.10**
